

Electronic Statement Delivery

Receive your Elmira Savings Bank checking and savings account statements online:

- The ultimate in convenience
- Added peace of mind
- Responsive to our environment

Available for both personal and business accounts!

Faster, safer.

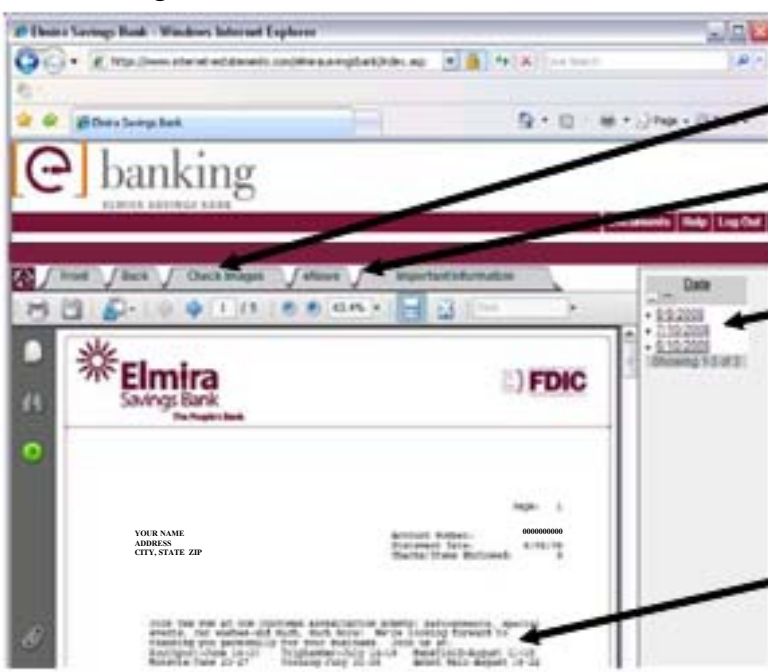

Instead of waiting to receive a statement in the mail, our Electronic Statement Delivery allows you to receive an email from us informing you your statement is available online. Go to www.elmirasavingsbank.com and log on to Elmira Savings Bank's Online Banking; enter your user name and password. Click on "Accounts" and "Account Statements", and select the statement you wish to review. Your statements are available more quickly along with images of your checks, and worries about statements being lost or stolen in the mail are gone.

Eliminates storage concerns and is environmentally responsive.

Your statements are available online for three months. Additionally, you can save your statement to your personal computer. Images of your checks are available online by clicking on the "Check Images" tab and selecting a specific check number. We are pleased that by providing you the added benefits of paperless statements we are also being responsive to our environment.

You won't miss out on important news.

In the example below you will notice that a statement message will still appear on your statement. In addition to that, any correspondence important to your account or banking relationship will appear under the "eNews" or "Important Information" tabs.
